

Product Application Restrictions

DEG Ex-Aster Jurong Island Chemicals Complex- Singapore Only

Seller primarily markets the Product as a chemical intermediate. Buyer represents that it does not use or sell (directly or indirectly) the Product in theatrical fogs or other artificial smoke generator applications, in or to the tobacco industry or for use in electronic cigarettes, in the manufacture or preparation of foods or pharmaceuticals, as a component of a weapon or weapons system or in aircraft de-icing applications or in food contact applications.

EO

Seller primarily markets the Product as a chemical intermediate. Buyer represents that it shall not use or sell EO in its current unreacted form for sterilant, fumigant, weapon and/or weapon component system applications. In addition, Buyer shall not repackage or distribute the Product provided under this Contract in its current unreacted form beyond the Buyer's Destination.

MEG / DEG / TEG

Seller primarily markets the Product as a chemical intermediate. Buyer represents that it does not use or sell (directly or indirectly) the Product in theatrical fogs or other artificial smoke generator applications, in or to the tobacco industry or for use in electronic cigarettes, in the manufacture or preparation of foods or pharmaceuticals where glycol is not further reacted to produce a derivative product, as a component of a weapon or weapons system or in aircraft de-icing applications.

MPG USP - Singapore Only

Buyer shall not use MPG USP sold as Product by Seller under this Contract in (a) pharmaceuticals that are directly injected into the blood system; (b) cat food; (c) direct sales to the tobacco industry or for use in electronic cigarettes; and/or (d) theatrical fogs and artificial smoke generation.

Buyer shall not use MPG Industrial (technical) grade Product in any pharmaceutical, food/feed or other personal use application such as cosmetics or personal health care, nor in fog/smoke generation.

Additionally, Buyer shall not upgrade MPG Industrial grade Product into MPG USP grade for such proscribed uses nor for use in any pharmaceutical or other sensitive application such as cosmetics or personal health care.

MPG USP - Rest of the World

Buyer shall not use MPG USP sold as Product by Seller under this Contract in (a) pharmaceuticals that are directly injected into the blood system; (b) cat food; (c) direct sales to the tobacco industry or for use in electronic cigarettes in Singapore; and/or (d) theatrical fogs and artificial smoke generation. Buyer shall not use MPG Industrial (technical) grade Product in any pharmaceutical, food/feed or other personal use application such as cosmetics or personal health care, nor in fog/smoke generation. Additionally, Buyer shall not upgrade MPG Industrial grade Product into MPG USP grade for such proscribed uses nor for use in any pharmaceutical or other sensitive application such as cosmetics or personal health care.
